III. How to install Virtuemart Plugin One Page Check Out

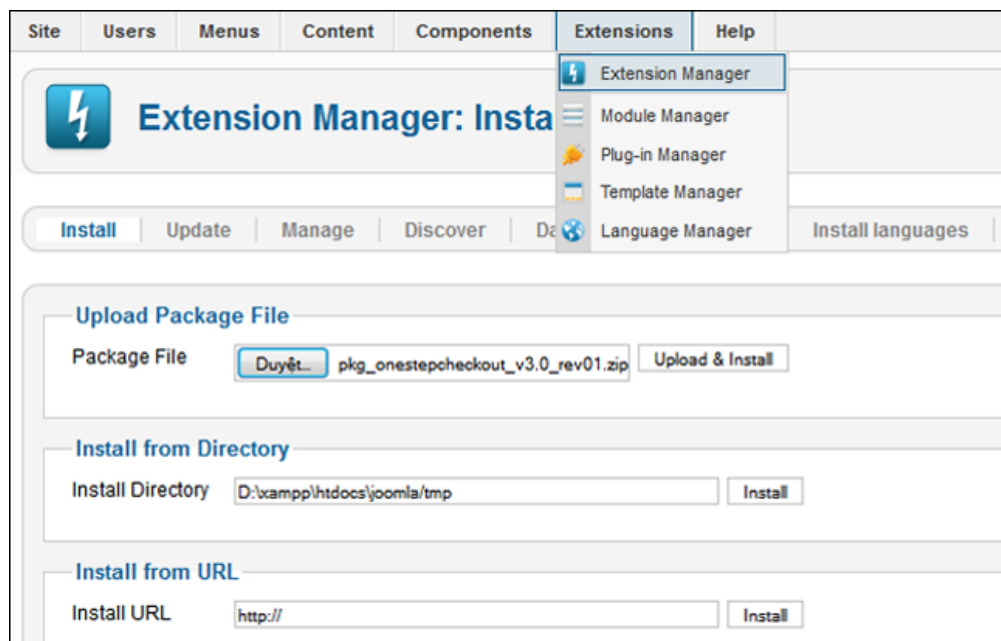

After purchasing a product, you will receive download link.

Now you just need to download our package named

“**plg_nb_vm_system_onestepcheckout_UNZIP_FIRST**”, unzip the first package and install

like other Joomla extension. From the Joomla Admin’s top navigation bar, click

“**Extensions**” → “**Extension Manager**” → “**Install**” tab.

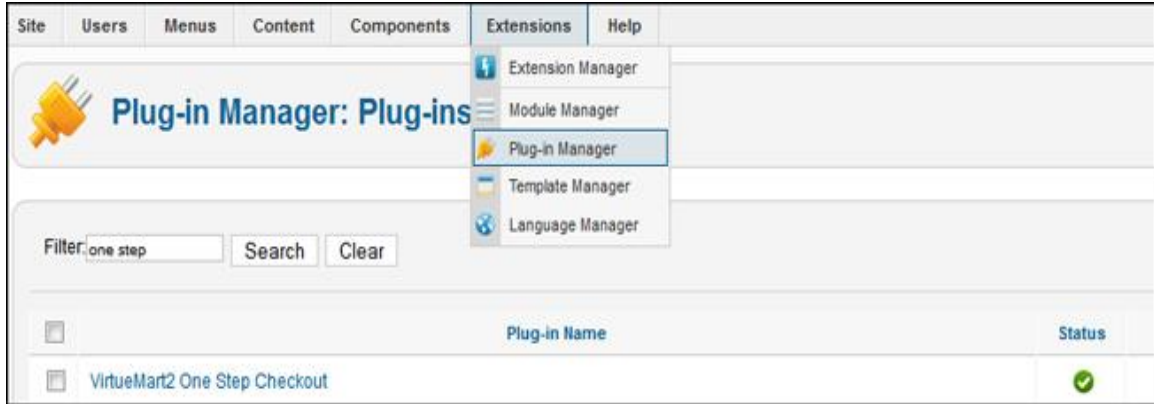

In the “**Upload Package File**” area, click “**Browse**” button and select

The file “**pkg_nb_vm_system_onestepcheckout_v3.0_rev01.zip**” file from your local folder and install it.

After installing, you need to go to “**Plug-in Management**” tab and find one page checkout plug-in.

Click plug-in to configure the plug-in action after enabling plug-in.

IV. How to Use Virtuemart Plugin One Page Check Out

1. Disable Using the VirtueMart jQuery and Use Fancybox

Our plugin is compatible with Virtuemart version 2.0.0.22c + and after installation our plugin, you will have to go

Administrator → **Component** → **Virtuemart** → **Configuration**

tab → **Configuration** → **“Template”** then you need to uncheck

“Using the VirtueMart jQuery” and **“Use Fancybox”**

Activate Css Styles & Javascrpts

Use Fancybox	<input type="checkbox"/>
Using the VirtueMart CSS	<input checked="" type="checkbox"/>
Using the VirtueMart jQuery	<input type="checkbox"/>
Using the product Scripts	<input checked="" type="checkbox"/>
Using the Script ajax Countries / Regions	<input checked="" type="checkbox"/>
Use jQuery chosen for dropdowns in FE	<input checked="" type="checkbox"/>
Use external google jQuery library	<input type="checkbox"/>

2. How to Use Multiple Languages for One page Checkout Plug-in

To use multi-languages for one page checkout plugin , you have to define keywords in your language file.

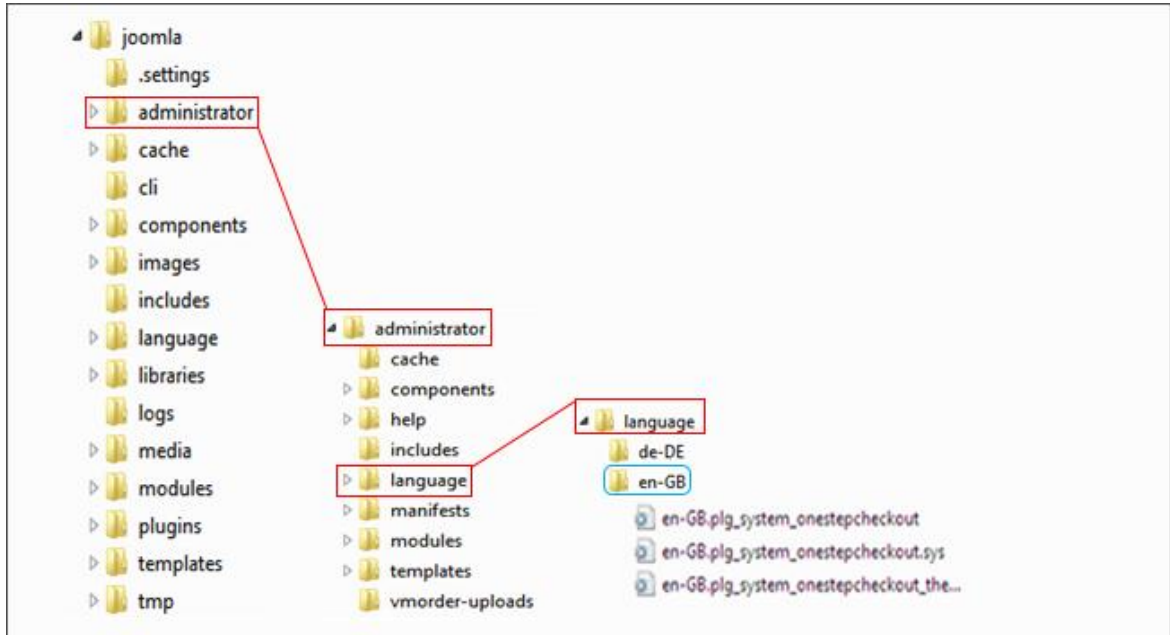

Go to the source code, find **“Administrator”** folder → **“Language”** → **“en-GB”** and

you will find three languagesfiles as following :

+ en-GB.plg_system_onestepcheckout.ini

+ en-GB.plg_system_onestepcheckout.sys.ini

+ en-GB.plg_system_onestepcheckout_theme.ini

Now you just need define keywork in three file language above

For example:

If your language is French, you will create a folder with the name“**fr-FR**”.

In fr-FR folder, you will need to create: “fr-Fr.plg_system_onestepcheckout_theme.ini”.

So, you’ve just defined keywords.

Appendix 1 – Virtuemart Extension FAQs

1. Question: Can I translate these extensions into other languages like Spanish, Chinese ...?

Answer: Yes, post your question on our forum so developer team can help to indicate where to update or change the languages to suite your need. Virtuemart and Joomla support international languages, please find your languages packages for Virtuemart and for Joomla here.

2. Question: Is this Extension compatible with Virtuemart 1.5?

Answer: All our Virtuemart extensions are compatible with Virtuemart 2.0.8+ and Joomla 2.5.x. We currently do not support Joomla 3.0.x

3. Question: Can I customize extensions to suite my need?

Answer: Yes. You can modify our extensions at your discretion for your own web-sites. However, you cannot resell or place the modified extensions (as whole) for downloads on your websites.

4. Question: I did the payment, while I have not received the download link?

Answer: The download link always is automatically sent to your payment email within 5 minutes after the payment is done. Please check your inbox, open your confirmation email and there is your own product download link.

5. Question: Please check the Order Confirmation Email, there is download link inside.

Answer: You can also use your download code to download on our website. Each single purchase product has its own code, and you have to copy the right code to download your product.

6. Question: How long can I download single purchase product?

Answer: You can still download the product within 6 months (180 days) from the payment time and can download up to 100 times. If this limit is over, you have to buy again the new product download sections.

7. Question: Can I download the update of new version?

Answer: Yes, within 6 months of your purchase, if we release and update the extension or template, we will include into the product download package on our download server, so you can download with the same download links in your confirmation email.

8. Question: How do I find if my product has been updated or a new version is released?

Answer: Visit the product page and you can check the status of updates and version release. Remember, you will have to check for each of the extension used on your site manually.

9. Question: I do not have a Paypal account. Do you support other payment methods?

Answer: Yes! You should know that Paypal supports including all major types of Credit cards. Visit Paypal (<https://www.paypal.com/vn/webapps/mpp/home>) for more information. So you still can pay via Paypal with your credit card or E-check.

10. Question: Do you have refundable policy?

Answer: Yes, we have refund policy (<http://cmsmart.net/refund-policy>). You can contact us (<http://www.cmsmart.com/contact.html>) for your special refund case.

11. Question: Can I install our products on multiple domains?

Answer: It depends on the domain license support that you purchase.
