

Install Instruction.

1. Please unzip the downloaded zip file „UNZIP_ME_Virtuemart_Themes.zip“
2. Within the extracted folder you see 3 more file
 - lib_mowebso.tgz
 - plg_mowebso.tgz
 - com_virtuemart
 - availability
3. Please install the „ lib_mowebso.tgz „ and „ plg_mowebso.tgz “ through the joomla install manager like with every other extensions.
4. Please connect to your ftp server and copy the „com_virtuemart“ folder inside the following path within the joomla root

„/templates/YOUR_TEMPLATE/html/“

If there is no „html“ folder within your template, please create one.

5. Availability icons

As a special gift we included our availability images in english and german. You find the image in the „availability“ folder. Upload this images into following path:

„/components/com_virtuemart/assets/images/availability/“

Now you should be able to choose these new images in your product information (backend)
